

Abdoul Aziz Maazou

AI Engineer — BASSETTI France

mamaabdoulaziz1@gmail.com | Grenoble,
France | linkedin.com/in/abdoul-aziz-maazou | github.com/ZizmanTK | zizmantk.github.io/Portfolio

3+ years in industry • Engineering degree (Master's level) • French • English • Hausa

SUMMARY

AI engineer with 3+ years of industry experience in **agentic AI** (LangGraph, RAG, MCP), **computer vision** and **full-stack development** (Angular, FastAPI, Django). I take AI features from prototype to production in real products.

SKILLS

AI & LLMs	LangGraph, LangChain, RAG, MCP, Agentic AI, scikit-learn
Computer vision	TensorFlow, Keras, OpenCV, CNNs, Deep learning, MATLAB
Back-end & data	Python, FastAPI, Django, .NET, PostgreSQL, MongoDB, MySQL
Front-end	Angular, TypeScript, HTML, SCSS
Cloud & tools	AWS, Azure, Azure DevOps, IIS, Docker, Git
Other languages	C#, C++, C, SQL
Certification	Python — LinkedIn skill assessment passed

EXPERIENCE

BASSETTI France Feb 2024 – Present

AI Engineer · Permanent contract · Grenoble · hybrid Sep 2025 – Present

- Build **agentic AI** features with **LangGraph** and **LangChain**, grounded in company knowledge through **retrieval-augmented generation (RAG)**.
- Connect agents to tools and data through the **Model Context Protocol (MCP)** and **PostgreSQL**.
- Ship AI services end to end: **FastAPI** back ends, **Angular** front ends, deployment on **AWS** and **Azure** alongside .NET / IIS.

AI Engineer · Fixed-term contract · Grenoble · hybrid Sep 2024 – Sep 2025

- Built **TxBot**, an **LLM assistant** (LangChain) answering questions over internal knowledge and TEEXMA data.
- Extended **REMIND**'s machine-learning workflows — **prediction, anomaly detection, clustering** — on materials data.

R&I Developer Assistant · Internship · Grenoble · on-site Feb 2024 – Jul 2024

- Built **REMIND**, a web app that imports materials databases (Excel, CSV, TEEXMA) and runs **ML workflows** on them — **Angular** front end, **Django** back end.
- MongoDB** data modelling, unit tests and technical documentation.

ArcelorMittal France Mar 2023 – Aug 2023

Computer Vision Developer Engineer · Internship · Uckange Mar 2023 – Aug 2023

- Built **CoilCheck**: automated detection of **surface defects on steel coils** before packaging, with **CNNs** and **OpenCV**.
- Trained and compared supervised **deep-learning** and **anomaly-detection** models in **TensorFlow**.

EDUCATION

Engineering degree (Master's level) — Images, Signals & Data Science Sep 2020 – Sep 2024

Télécom Physique Strasbourg — Strasbourg, France

Preparatory classes (CPGE) — Maths & Physics Sep 2018 – Jul 2020

CPGE Ibn Ghazi — Rabat, Morocco

Scientific baccalaureate Sep 2015 – Jul 2018

Lycée d'Excellence de Niamey — Niamey, Niger

ADDITIONAL INFORMATION

Languages	French (fluent) · English (professional) · Hausa (native)
Side projects	Unity: Roll Power (GMTK Game Jam 2022) · ZKTris Unforgivable (2022) — zizmantk.itch.io
Interests	Game development (Unity) · Music production (FL Studio) · Volleyball · Chess
