01 ## profile

AI engineer with an engineering degree in images, signals & data science. Three years of industry experience across agentic AI (LangGraph, RAG, MCP), computer vision and full-stack development (Angular, FastAPI, Django) — shipping AI features into real products.

// My goal: contribute to improving the human condition through AI.

Sep 2025 → present

Permanent

AI Engineer @ BASSETTI France · Grenoble · hybrid

+ Build agentic AI features with LangGraph and LangChain, grounded in company knowledge through retrieval-augmented generation (RAG).

+ Connect agents to tools and data through the Model Context Protocol (MCP) and PostgreSQL.

+ Ship AI services end to end: FastAPI back ends, Angular front ends, deployment on AWS and Azure alongside .NET / IIS environments.

Sep 2024 → Sep 2025

Fixed-term

AI Engineer @ BASSETTI France · Grenoble · hybrid

+ Built TxBot, an LLM assistant (LangChain) answering questions over internal knowledge and TEEXMA data.

+ Extended REMIND's machine-learning workflows — prediction, anomaly detection, clustering — on materials data.

LangChain · Python · Django · Angular · scikit-learn · MySQL

Feb 2024 → Jul 2024

Internship

R&I Developer Assistant @ BASSETTI France · Grenoble · on-site

+ Built REMIND, a web app that imports materials databases (Excel, CSV, TEEXMA) and runs ML workflows on them — Angular front end, Django back end.

+ MongoDB data modelling, unit tests and technical documentation.

Mar 2023 → Aug 2023

Internship

Computer Vision Developer Engineer @ ArcelorMittal France · Uckange

+ Built CoilCheck: automated detection of surface defects on steel coils before packaging, with CNNs and OpenCV.

+ Trained and compared supervised deep-learning and anomaly-detection models in TensorFlow; ran a technology watch on industrial vision.

Python · TensorFlow · OpenCV · CNNs · Deep learning · Git

03 ## side projects

Roll Power · GMTK Game Jam 2022 — Rolling is your superpower. Push the bombs away before they blow.

ZKTris Unforgivable · Personal project · 2022 — A Tetris remake where holes can never be cleared.
